Neutral eye protection

Standard and certification	EN 166 / EN 169 / EN 170 / EN 172		
Applications	Protects from impacts at high velocity and low energy. Sectors: agricultural activities, forestry, automotive industry, textiles, plastics, construction, sport and outdoor activities, excellent as visitor spectacles, etc.		
Conservation Storage - Expiry	In order to maintain the spectacles in good condition, keep them in a clean, dry place in their appropriate case.		
Directions Use	Cleaning: use tepid water and a neutral soap. Do not use abrasives or solvents. Rinse in water and dry with a soft cloth. Medop anti-fogging cleaning spray is also recommended. We advise regular inspection of the protectors, and their replacement if they have deteriorated in any way. Please ensure that the risk present in the workplace corresponds with the field of use of these protectors.		
Presentation	12 units per box. 300 units per carton.
