Neutral eye protection

Description and composition:

Nylon frame: resistant and lightweight.

Uni-lens design with a wide field of vision, with excellent lateral vision and protection.

Upper and side protection. Adjustable length temples.

Colour: ● ● ●

Weight: 42 g

Adjustable length temples

Excellent side protection

Uni-lens design with a wide field of vision

Neutral eye protection

Standard and certification	EN 166 / EN 169 / EN 170 / EN 172																													
Applications	Protects from impacts at high velocity and low energy. Anti-fogging version: recommended for hot environments or environments with a combination of different temperatures. Solar version: suitable for outdoor work. Optol version: ultraviolet protection. Sectors: agricultural activities, forestry, automotive industry, textiles, plastics, sport and outdoor activities, welding jobs, etc.																													
Conservation Storage - Expiry	In order to maintain the spectacles in good condition, keep them in a clean, dry place in their appropriate case.																													
Directions Use	Cleaning: use warm water and a neutral soap. Do not use abrasives or solvents. Rinse in water and dry with a soft cloth. Medop anti-fogging cleaning spray is also recommended. We advise regular inspection of the protectors, and their replacement if they have deteriorated in any way. Please ensure that the risk present in the workplace corresponds with the field of use of these protectors.																													
Presentation	12 units per box 25 boxes per carton
